

## ***ENVIRONMENT PROGRAMMES:***

*The Consequences of the Environmental pollution are not hard to comprehend, whereas the solution to ending environmental pollution is not easy to come by this is an unending complex and intricate debate and may be single solution, however attempts can always be made to find out solution to specific problems keeping in view the technological solutions legal parameters and judicial pronouncements & the role of NGO's has a very important to protection of environment through social services. The NGO's from past five decades have witnessed the difficult problems encountered in providing health care services to our poor people; spread the awareness to public protection of wildlife, forest, human right, Women and Children etc*

*The main focus of the Society in shaping environmental policies which are as follows:*

*Creating awareness among the public on current environmental issues and solutions.*

*Facilitating the participation of various categories of stakeholders in the discussion on environmental issues.*

*Conducting participatory rural appraisal.*

*Being involved in the protection of human rights to have a clean environment, protecting the natural resources and entrusting the equitable use of resources.*

*Data generation on natural resources, time line history of villages.*

*Analyzing and monitoring of environmental quality.*

*Transferring information through brochures, articles, audio visuals, etc.*

*Organizing seminars, lectures and group discussion for promotion of environmental awareness.*

*Helping the village administrative officials in preparation, application and execution of projects on environmental protection.*

*The Society has organized various awareness programmes in many schools of the state to educate the children about the importance of a healthy environment and the measures to be taken to protect our Mother Nature & has also discussed about re-cycling & re-generation of waste materials for improving bio-diversity of a particular area and without increasing the waste materials and become a part of the Swachh Bharat.*

*To organize more awareness among the common people the Society has organized the World Environment Day on 5<sup>th</sup> June, 2017 with the theme "One World, One Environment", and took several plantation activities in various places of the state. The Society has put several efforts to encourage the students, youths, women and common people to use waste materials to produce bio-fertilizer and promote natural agriculture production.*
